

Pension Comparator: Compare two pension schemes

Why compare your pension scheme?

Pension schemes differ from each other. With this comparator you can create an overview of the differences between two pension schemes. For example, you can see what you will and will not receive. See what the differences are and what that means for you. You could then consider to make arrangements yourself. Understanding the differences, is also one of the steps that need to be taken with a value transfer: will you transfer your pension to your new pension provider or not?
